Preface

The Floodlight MS Data Collection Tool (DCT) includes the Floodlight MS Pinching Test, Cognitive Test, Draw a Shape Test, 2MWT, and U Turn Test.

1.1 Intended Use

The Floodlight MS Data Collection Tool (DCT) is intended to present various assessment modules to patients with multiple sclerosis in the context of clinical research; receive results; and send results from the assessment modules to a server. The assessment modules included in the DCT are the Floodlight MS Pinching Test, Cognitive Test, Draw a Shape Test, Two Minute Walk Test and U Turn Test.

The Floodlight MS DCT is not intended for monitoring, diagnostic, therapeutic or any other medical practice purpose. The Floodlight MS DCT does not provide medical benefit to the individual patient.

Unsupported Phones

The Floodlight MS Data Collection Tool (DCT) is not supported on the following phones:

Brand	Model Name

LG Electronics	K20 Plus
LG Electronics	Risio 3
LG Electronics	Tribute Dynasty
LG Electronics	Rebel 4
LG Electronics	Stylo 3 Plus
Motorola	Moto E5 Play
Motorola	Moto E4
Samsung	Galaxy J6

Known Limitations and Workarounds

The following issues are identified as known issues with workarounds in the current release of Floodlight MS Data Collection Tool (DCT).

Using the Android Back button in the middle of an activity takes you to the wrong screen

If you are using an Android phone and tap the Android Back button in the middle of an activity, occasionally, you may be taken back to the start screen for the activity. In this case, you will have to start the activity again.

Cognitive Test icon stays active for two consecutive days

On an iOS phone, you may see the cognitive test enabled everyday. However, you will not be able to actually perform the Cognitive Test if it has been done in the past 6 days and this is expected behavior.
